

ANNEX XIII

List provided for in Article 138(5) of the Act of Accession

NORWAY

1. Aid supplementary to the compensatory payments provided for in Article 8 (2) of Regulation (EEC) No 1766/92 and granted to producers of potatoes intended for the manufacture of starch within the limits of the volume of production existing before accession.

2. Aid for the production of specific varieties of certified seeds of a limited number of fodder species covered by Regulation (EEC) No 2358/71. This aid is granted per 100 kg, is limited to quantities produced before accession and, as far as certified seeds are concerned, is supplementary to the aid provided for in Regulation (EEC) No 2358/71.

It may in particular be granted for the following varieties of certified fodder crop seeds: Timothy, Red Clover, Meadow Fescue and Cocksfoot.

AUSTRIA

1. Aid supplementary to the compensatory payments provided for in Article 8 (2) of Regulation (EEC) No 1766/92 and granted to producers of potatoes intended for the manufacture of starch within the limits of the volume of production existing before accession.
2. Aid corresponding to the difference between the level of the suckler-cow premium existing before accession and the level provided for by Article 4d (7) of Regulation (EEC) No 805/68.
3. Aid supplementary to the aid for the production of hops provided for by Articles 12 and 12a of Regulation (EEC) No 1696/71 granted for four years after accession within the limits of the surface under hops, on average, for the three years preceding accession.
4. Aid granted for the three years following accession to certain growers of seeds of fodder crop species for certain quantities for which a premium equal to at least twice the amount of support granted by the Community had been granted in 1992 under the national regime.

5. Aid supplementary to the compensatory payments provided for by Regulation (EEC) No 1765/92 in favour of the production of high-protein products to the extent necessary in order to maintain the competitiveness of these products as compared with cereals and oilseeds.

FINLAND

1. Aid supplementary to the compensatory payments provided for in Article 8 (2) of Regulation (EEC) No 1766/92, granted to producers of potatoes intended for the manufacture of starch within the limits of the volume of production existing before accession.
2. Aid corresponding to the difference between the level of the suckler-cow premium existing prior to accession and the level provided for in Article 4d (7) of Regulation (EEC) No 805/68.
3. Aids in the live plant and floriculture product sector provided for in Regulation (EEC) No 234/68 which:
 - do not give rise to any increase in production existing prior to accession;
 - are granted within individual limits to be determined in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 234/68.
4. Aid supplementary to that provided for in Article 5 of Regulation (EEC) No 1117/78 granted for the two marketing years following accession to producers of dried fodder in traditional areas of production.
5. Aid for the production of certain varieties of certified or commercial seeds of a limited number of fodder species covered by Regulation (EEC) No 2358/71. This aid is granted per 100 kg, is limited to quantities produced before accession and, as far as certified or basic seeds are concerned, is supplementary to the aid provided for in Regulation (EEC) No 2385/71.

It can in particular be granted for the following varieties of fodder crop seeds: Timothy, Red Clover, Meadow Fescue and Cocksfoot.
