

- (b) care instructions for textile and apparel goods;
 - (c) fiber content information for textile and apparel goods;
 - (d) uniform methods acceptable for the attachment of required information to textile and apparel goods; and
 - (e) use in the territory of the other Parties of each Party's national registration numbers for manufacturers or importers of textile and apparel goods.
-

PART FOUR: GOVERNMENT PROCUREMENT

Chapter Ten: Government Procurement

Section A - Scope and Coverage and National Treatment

Article 1001: Scope and Coverage

1. This Chapter applies to measures adopted or maintained by a Party relating to procurement:

(a) by a federal government entity set out in Annex 1001.1a-1, a government enterprise set out in Annex 1001.1a-2, or a state or provincial government entity set out in Annex 1001.1a-3 in accordance with Article 1024;

(b) of goods in accordance with Annex 1001.1b-1, services in accordance with Annex 1001.1b-2, or construction services in accordance with Annex 1001.1b-3; and

(c) where the value of the contract to be awarded is estimated to be equal to or greater than a threshold, calculated and adjusted according to the U.S. inflation rate as set out in Annex 1001.1c, of

(i) for federal government entities, US\$50,000 for contracts for goods, services or any combination thereof, and US\$6.5 million for contracts for construction services,

(ii) for government enterprises, US\$250,000 for contracts for goods, services or any combination thereof, and US\$8.0 million for contracts for construction services, and

(iii) for state and provincial government entities, the applicable threshold, as set out in Annex 1001.1a-3 in accordance with Article 1024.

2. Paragraph 1 is subject to:

(a) the transitional provisions set out in Annex 1001.2a;

(b) the General Notes set out in Annex 1001.2b; and

(c) Annex 1001.2c, for the Parties specified therein.

3. Subject to paragraph 4, where a contract to be awarded by an entity is not covered by this Chapter, this Chapter shall not be construed to cover any good or service component of that contract.

4. No Party may prepare, design or otherwise structure any procurement contract in order to avoid the obligations of this Chapter.

5. Procurement includes procurement by such methods as purchase, lease or rental, with or without an option to buy. Procurement does not include:

(a) non-contractual agreements or any form of government assistance, including cooperative agreements, grants, loans, equity infusions, guarantees, fiscal incentives, and government provision of goods and services to persons or state, provincial and regional governments; and

(b) the acquisition of fiscal agency or depository services, liquidation and management services for regulated financial institutions and sale and distribution services for government debt.

Article 1002: Valuation of Contracts

1. Each Party shall ensure that its entities, in determining whether a contract is covered by this Chapter, apply paragraphs 2 through 7 in calculating the value of that contract.

2. The value of a contract shall be estimated as at the time of publication of a notice in accordance with Article 1010.

3. In calculating the value of a contract, an entity shall take into account all forms of remuneration, including premiums, fees, commissions and interest.

4. Further to Article 1001(4), an entity may not select a valuation method, or divide procurement requirements into separate contracts, to avoid the obligations of this Chapter.

5. Where an individual requirement for a procurement results in the award of more than one contract, or in contracts being awarded in separate parts, the basis for valuation shall be either:

(a) the actual value of similar recurring contracts concluded over the prior fiscal year or 12 months adjusted, where possible, for anticipated changes in quantity and value over the subsequent 12 months; or

(b) the estimated value of recurring contracts in the fiscal year or 12 months subsequent to the initial contract.

6. In the case of a contract for lease or rental, with or without an option to buy, or in the case of a contract that does not specify a total price, the basis for valuation shall be:

(a) in the case of a fixed-term contract, where the term is 12 months or less, the total contract value, for its duration or, where the term exceeds 12 months, the total contract value, including the estimated residual value; or

(b) in the case of a contract for an indefinite period, the estimated monthly installment multiplied by 48.

If the entity is uncertain as to whether a contract is for a fixed or an indefinite term, the entity shall calculate the value of the contract using the method set out in subparagraph (b).

7. Where tender documentation requires option clauses, the basis for valuation shall be the total value of the maximum permissible procurement, including all possible optional purchases.

Article 1003: National Treatment and Non-Discrimination

1. With respect to measures covered by this Chapter, each Party shall accord to goods of another Party, to the suppliers of such goods and to service suppliers of another Party, treatment no less favorable than the most favorable treatment that the Party accords to:

(a) its own goods and suppliers; and

(b) goods and suppliers of another Party.

2. With respect to measures covered by this Chapter, no Party may:

(a) treat a locally established supplier less favorably than another locally established supplier on the basis of degree of foreign affiliation or ownership; or

(b) discriminate against a locally established supplier on the basis that the goods or services offered by that supplier for the particular procurement are goods or services of another Party.

3. Paragraph 1 does not apply to measures respecting customs duties or other charges of any kind imposed on or in connection with importation, the method of levying such duties or charges or other import regulations, including restrictions and formalities.

Article 1004: Rules of Origin

No Party may apply rules of origin to goods imported from another Party for purposes of government procurement covered by this Chapter that are different from or inconsistent with the rules of origin the Party applies in the normal course of trade, which may be the Marking Rules established under Annex 311 if they become the rules of origin applied by that Party in the normal course of its trade.

Article 1005: Denial of Benefits

1. Subject to prior notification and consultation in accordance with Articles 1803 (Notification and Provision of Information) and 2006 (Consultations), a Party may deny the benefits of this Chapter to a service supplier of another Party where the Party establishes that the service is being provided by an enterprise that is owned or controlled by persons of a non-Party and that has no substantial business activities in the territory of any Party.

2. A Party may deny to an enterprise of another Party the benefits of this Chapter if nationals of a non-Party own or control the enterprise and:

(a) the circumstance set out in Article 1113(1)(a) (Denial of Benefits) is met; or

(b) the denying Party adopts or maintains measures with respect to the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise.

Article 1006: Prohibition of Offsets

Each Party shall ensure that its entities do not, in the qualification and selection of suppliers, goods or services, in the evaluation of bids or the award of contracts, consider, seek or impose offsets. For purposes of this Article, offsets means conditions imposed or considered by an entity prior to or in the course of its procurement process that encourage local development or improve its Party's balance of payments accounts, by means of requirements of local content, licensing of technology, investment, counter-trade or similar requirements.

Article 1007: Technical Specifications

1. Each Party shall ensure that its entities do not prepare, adopt or apply any technical specification with the purpose or the effect of creating unnecessary obstacles to trade.

2. Each Party shall ensure that any technical specification prescribed by its entities is, where appropriate:

(a) specified in terms of performance criteria rather than design or descriptive characteristics; and

(b) based on international standards, national technical regulations, recognized national standards, or building codes.

3. Each Party shall ensure that the technical specifications prescribed by its entities do not require or refer to a particular trademark or name, patent, design or type, specific origin or producer or supplier unless there is no sufficiently precise or intelligible way of otherwise describing the procurement requirements and provided that, in such cases, words such as "or equivalent" are included in the tender documentation.

4. Each Party shall ensure that its entities do not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in that procurement.

Section B - Tendering Procedures

Article 1008: Tendering Procedures

1. Each Party shall ensure that the tendering procedures of its entities are:

- (a) applied in a non-discriminatory manner; and
- (b) consistent with this Article and Articles 1009 through 1016.

2. In this regard, each Party shall ensure that its entities:

- (a) do not provide to any supplier information with regard to a specific procurement in a manner that would have the effect of precluding competition; and
- (b) provide all suppliers equal access to information with respect to a procurement during the period prior to the issuance of any notice or tender documentation.

Article 1009: Qualification of Suppliers

1. Further to Article 1003, no entity of a Party may, in the process of qualifying suppliers in a tendering procedure, discriminate between suppliers of the other Parties or between domestic suppliers and suppliers of the other Parties.

2. The qualification procedures followed by an entity shall be consistent with the following:

- (a) conditions for participation by suppliers in tendering procedures shall be published sufficiently in advance so as to provide the suppliers adequate time to initiate and, to the extent that it is compatible with efficient operation of the procurement process, to complete the qualification procedures;
- (b) conditions for participation by suppliers in tendering procedures, including financial guarantees, technical qualifications and information necessary for establishing the financial, commercial and technical capacity of suppliers, as well as the verification of whether a supplier meets those conditions, shall be limited to those that are essential to ensure the fulfillment of the contract in question;
- (c) the financial, commercial and technical capacity of a supplier shall be judged both on the basis of that supplier's global business activity, including its activity in the territory of the Party of the supplier, and its activity, if any, in the territory of the Party of the procuring entity;
- (d) an entity shall not misuse the process of, including the time required for, qualification in order to exclude suppliers of another Party from a suppliers' list or from being considered for a particular procurement;
- (e) an entity shall recognize as qualified suppliers those suppliers of another Party that meet the conditions for participation in a particular procurement;

(f) an entity shall consider for a particular procurement those suppliers of another Party that request to participate in the procurement and that are not yet qualified, provided there is sufficient time to complete the qualification procedure;

(g) an entity that maintains a permanent list of qualified suppliers shall ensure that suppliers may apply for qualification at any time, that all qualified suppliers so requesting are included in the list within a reasonably short period of time and that all qualified suppliers included in the list are notified of the termination of the list or of their removal from it;

(h) where, after publication of a notice in accordance with Article 1010, a supplier that is not yet qualified requests to participate in a particular procurement, the entity shall promptly start the qualification procedure;

(i) an entity shall advise any supplier that requests to become a qualified supplier of its decision as to whether that supplier has become qualified; and

(j) where an entity rejects a supplier's application to qualify or ceases to recognize a supplier as qualified, the entity shall, on request of the supplier, promptly provide pertinent information concerning the entity's reasons for doing so.

3. Each Party shall:

(a) ensure that each of its entities uses a single qualification procedure, except that an entity may use additional qualification procedures where the entity determines the need for a different procedure and is prepared, on request of another Party, to demonstrate that need; and

(b) endeavor to minimize differences in the qualification procedures of its entities.

4. Nothing in paragraphs 2 and 3 shall prevent an entity from excluding a supplier on grounds such as bankruptcy or false declarations.

Article 1010: Invitation to Participate

1. Except as otherwise provided in Article 1016, an entity shall publish an invitation to participate for all procurements in accordance with paragraphs 2, 3 and 5, in the appropriate publication referred to in Annex 1010.1.

2. The invitation to participate shall take the form of a notice of proposed procurement that shall contain the following information:

(a) a description of the nature and quantity of the goods or services to be procured, including any options for further procurement and, if possible,

(i) an estimate of when such options may be exercised, and

(ii) in the case of recurring contracts, an estimate of when the subsequent notices will be issued;

(b) a statement as to whether the procedure is open or selective and whether it will involve negotiation;

(c) any date for starting or completion of delivery of the goods or services to be procured;

(d) the address to which an application to be invited to tender or to qualify for the suppliers' lists must be submitted, the final date for receiving the application and the language or languages in which it may be submitted;

(e) the address to which tenders must be submitted, the final date for receiving tenders and the language or languages in which tenders may be submitted;

(f) the address of the entity that will award the contract and that will provide any information necessary for obtaining specifications and other documents;

(g) a statement of any economic or technical requirements and of any financial guarantees, information and documents required from suppliers;

(h) the amount and terms of payment of any sum payable for the tender documentation; and

(i) a statement as to whether the entity is inviting offers for purchase, lease or rental, with or without an option to buy.

3. Notwithstanding paragraph 2, an entity listed in Annex 1001.1a-2 or 1001.1a-3 may use as an invitation to participate a notice of planned procurement that shall contain as much of the information referred to in paragraph 2 as is available to the entity, but that shall include, at a minimum, the following information:

(a) a description of the subject matter of the procurement;

(b) the time limits set for the receipt of tenders or applications to be invited to tender;

(c) the address to which requests for documents relating to the procurement should be submitted;

(d) a statement that interested suppliers should express their interest in the procurement to the entity; and

(e) the identification of a contact point within the entity from which further information may be obtained.

4. An entity that uses a notice of planned procurement as an invitation to participate shall subsequently invite suppliers that have expressed an interest in the procurement to confirm their interest on the basis of information provided by the entity, which shall include at least the information referred to in paragraph 2.

5. Notwithstanding paragraph 2, an entity listed in Annex 1001.1a-2 or 1001.1a-3 may use as an invitation to participate a notice regarding a qualification system. An entity that uses such a notice shall, subject to the considerations referred to Article 1015(8), provide in a timely manner information that allows all suppliers that have expressed an interest in participating in the procurement to have a meaningful opportunity to assess their interest. The information shall normally include the information required for notices referred to in paragraph 2. Information provided to any interested supplier shall be provided in a non-discriminatory manner to all other interested suppliers.

6. In the case of selective tendering procedures, an entity that maintains a permanent list of qualified suppliers shall publish annually in the appropriate publication referred to in Annex 1010.1 a notice containing the following information:

- (a) an enumeration of any such lists maintained, including their headings, in relation to the goods or services or categories of goods or services to be procured through the lists;
- (b) the conditions to be fulfilled by suppliers in view of their inscription on the lists and the methods according to which each of those conditions will be verified by the entity concerned; and
- (c) the period of validity of the lists and the formalities for their renewal.

7. Where, after publication of an invitation to participate, but before the time set for the opening or receipt of tenders as specified in the notices or the tender documentation, an entity finds that it has become necessary to amend or reissue the notice or tender documentation, the entity shall ensure that the amended or reissued notice or tender documentation is given the same circulation as the original. Any significant information given by an entity to a supplier with respect to a particular procurement shall be given simultaneously to all other interested suppliers and sufficiently in advance so as to provide all suppliers concerned adequate time to consider the information and to respond.

8. An entity shall indicate in the notices referred to in this Article that the procurement is covered by this Chapter.

Article 1011: Selective Tendering Procedures

1. To ensure optimum effective competition between the suppliers of the Parties under selective tendering procedures, an entity shall, for each procurement, invite tenders from the maximum number of domestic suppliers and suppliers of the other Parties, consistent with the efficient operation of the procurement system.

2. Subject to paragraph 3, an entity that maintains a permanent list of qualified suppliers may select suppliers to be invited to tender for a particular procurement from among those listed. In the process of making a selection, the entity shall provide for equitable opportunities for suppliers on the list.

3. Subject to Article 1009(2)(f), an entity shall allow a supplier that requests to participate in a particular procurement to submit a tender and shall consider the tender. The number of

additional suppliers permitted to participate shall be limited only by the efficient operation of the procurement system.

4. Where an entity does not invite or admit a supplier to tender, the entity shall, on request of the supplier, promptly provide pertinent information concerning its reasons for not doing so.

Article 1012: Time Limits for Tendering and Delivery

1. An entity shall:

(a) in prescribing a time limit, provide adequate time to allow suppliers of another Party to prepare and submit tenders before the closing of the tendering procedures;

(b) in determining a time limit, consistent with its own reasonable needs, take into account such factors as the complexity of the procurement, the extent of subcontracting anticipated, and the time normally required for transmitting tenders by mail from foreign as well as domestic points; and

(c) take due account of publication delays when setting the final date for receipt of tenders or applications to be invited to tender.

2. Subject to paragraph 3, an entity shall provide that:

(a) in open tendering procedures, the period for the receipt of tenders is no less than 40 days from the date of publication of a notice in accordance with Article 1010;

(b) in selective tendering procedures not involving the use of a permanent list of qualified suppliers, the period for submitting an application to be invited to tender is no less than 25 days from the date of publication of a notice in accordance with Article 1010, and the period for receipt of tenders is no less than 40 days from the date of issuance of the invitation to tender; and

(c) in selective tendering procedures involving the use of a permanent list of qualified suppliers, the period for receipt of tenders is no less than 40 days from the date of the initial issuance of invitations to tender, but where the date of initial issuance of invitations to tender does not coincide with the date of publication of a notice in accordance with Article 1010, there shall not be less than 40 days between those two dates.

3. An entity may reduce the periods referred to in paragraph 2 in accordance with the following:

(a) where a notice referred to Article 1010(3) or (5) has been published for a period of no less than 40 days and no more than 12 months, the 40-day limit for receipt of tenders may be reduced to no less than 24 days;

(b) in the case of the second or subsequent publications dealing with recurring contracts within the meaning of Article 1010(2)(a), the 40-day limit for receipt of tenders may be reduced to no less than 24 days;

(c) where a state of urgency duly substantiated by the entity renders impracticable the periods in question, the periods may be reduced to no less than 10 days from the date of publication of a notice in accordance with Article 1010; or

(d) where an entity listed in Annex 1001.1a-2 or 1001.1a- 3 is using as an invitation to participate a notice referred to in Article 1010(5), the periods may be fixed by mutual agreement between the entity and all selected suppliers but, in the absence of agreement, the entity may fix periods that shall be sufficiently long to allow for responsive bidding and in any event shall be no less than 10 days.

4. An entity shall, in establishing a delivery date for goods or services and consistent with its own reasonable needs, take into account such factors as the complexity of the procurement, the extent of subcontracting anticipated and the time realistically required for production, destocking and transport of goods from the points of supply.

Article 1013: Tender Documentation

1. Where an entity provides tender documentation to suppliers, the documentation shall contain all information necessary to permit suppliers to submit responsive tenders, including information required to be published in the notice referred to in Article 1010(2), except for the information required under Article 1010(2)(h). The documentation shall also include:

(a) the address of the entity to which tenders should be submitted;

(b) the address to which requests for supplementary information should be submitted;

(c) the language or languages in which tenders and tendering documents may be submitted;

(d) the closing date and time for receipt of tenders and the length of time during which tenders should be open for acceptance;

(e) the persons authorized to be present at the opening of tenders and the date, time and place of the opening;

(f) a statement of any economic or technical requirements and of any financial guarantees, information and documents required from suppliers;

(g) a complete description of the goods or services to be procured and any other requirements, including technical specifications, conformity certification and necessary plans, drawings and instructional materials;

(h) the criteria for awarding the contract, including any factors other than price that are to be considered in the evaluation of tenders and the cost elements to be included in evaluating tender prices, such as transportation, insurance and inspection costs, and in the case of goods or services of another Party, customs duties and other import charges, taxes and the currency of payment;

(i) the terms of payment; and

(j) any other terms or conditions.

2. An entity shall:

(a) forward tender documentation on the request of a supplier that is participating in open tendering procedures or has requested to participate in selective tendering procedures, and reply promptly to any reasonable request for explanations relating thereto; and

(b) reply promptly to any reasonable request for relevant information made by a supplier participating in the tendering procedure, on condition that such information does not give that supplier an advantage over its competitors in the procedure for the award of the contract.

Article 1014: Negotiation Disciplines

1. An entity may conduct negotiations only:

(a) in the context of procurement in which the entity has, in a notice published in accordance with Article 1010, indicated its intent to negotiate; or

(b) where it appears to the entity from the evaluation of the tenders that no one tender is obviously the most advantageous in terms of the specific evaluation criteria set out in the notices or tender documentation.

2. An entity shall use negotiations primarily to identify the strengths and weaknesses in the tenders.

3. An entity shall treat all tenders in confidence. In particular, no entity may provide to any person information intended to assist any supplier to bring its tender up to the level of any other tender.

4. No entity may, in the course of negotiations, discriminate between suppliers. In particular, an entity shall:

(a) carry out any elimination of suppliers in accordance with the criteria set out in the notices and tender documentation;

(b) provide in writing all modifications to the criteria or technical requirements to all suppliers remaining in the negotiations;

(c) permit all remaining suppliers to submit new or amended tenders on the basis of the modified criteria or requirements; and

(d) when negotiations are concluded, permit all remaining suppliers to submit final tenders in accordance with a common deadline.

Article 1015: Submission, Receipt and Opening of Tenders and Awarding of Contracts

1. An entity shall use procedures for the submission, receipt and opening of tenders and the awarding of contracts that are consistent with the following:

(a) tenders shall normally be submitted in writing directly or by mail;

(b) where tenders by telex, telegram, telecopy or other means of electronic transmission are permitted, the tender made thereby must include all the information necessary for the evaluation of the tender, in particular the definitive price proposed by the supplier and a statement that the supplier agrees to all the terms and conditions of the invitation to tender;

(c) a tender made by telex, telegram, telecopy or other means of electronic transmission must be confirmed promptly by letter or by the dispatch of a signed copy of the telex, telegram, telecopy or electronic message;

(d) the content of the telex, telegram, telecopy or electronic message shall prevail where there is a difference or conflict between that content and the content of any documentation received after the time limit for submission of tenders;

(e) tenders presented by telephone shall not be permitted;

(f) requests to participate in selective tendering procedures may be submitted by telex, telegram or telecopy and if permitted, may be submitted by other means of electronic transmission; and

(g) the opportunities that may be given to suppliers to correct unintentional errors of form between the opening of tenders and the awarding of the contract shall not be administered in a manner that would result in discrimination between suppliers.

In this paragraph, "means of electronic transmission" consists of means capable of producing for the recipient at the destination of the transmission a printed copy of the tender.

2. No entity may penalize a supplier whose tender is received in the office designated in the tender documentation after the time specified for receiving tenders if the delay is due solely to mishandling on the part of the entity. An entity may also consider, in exceptional circumstances, tenders received after the time specified for receiving tenders if the entity's procedures so provide.

3. All tenders solicited by an entity under open or selective tendering procedures shall be received and opened under procedures and conditions guaranteeing the regularity of the opening of tenders. The entity shall retain the information on the opening of tenders. The information shall remain at the disposal of the competent authorities of the Party for use, if required, under Article 1017, Article 1019 or Chapter Twenty (Institutional Arrangements and Dispute Settlement Procedures).

4. An entity shall award contracts in accordance with the following:

(a) to be considered for award, a tender must, at the time of opening, conform to the essential requirements of the notices or tender documentation and have been submitted by a supplier that complies with the conditions for participation;

(b) if the entity has received a tender that is abnormally lower in price than other tenders submitted, the entity may inquire of the supplier to ensure that it can comply with the conditions of participation and is or will be capable of fulfilling the terms of the contract;

(c) unless the entity decides in the public interest not to award the contract, the entity shall make the award to the supplier that has been determined to be fully capable of undertaking the contract and whose tender is either the lowest-priced tender or the tender determined to be the most advantageous in terms of the specific evaluation criteria set out in the notices or tender documentation;

(d) awards shall be made in accordance with the criteria and essential requirements specified in the tender documentation; and

(e) option clauses shall not be used in a manner that circumvents this Chapter.

5. No entity of a Party may make it a condition of the awarding of a contract that the supplier has previously been awarded one or more contracts by an entity of that Party or that the supplier has prior work experience in the territory of that Party.

6. An entity shall:

(a) on request, promptly inform suppliers participating in tendering procedures of decisions on contract awards and, if so requested, inform them in writing; and

(b) on request of a supplier whose tender was not selected for award, provide pertinent information to that supplier concerning the reasons for not selecting its tender, the relevant characteristics and advantages of the tender selected and the name of the winning supplier.

7. No later than 72 days after the award of a contract, an entity shall publish a notice in the appropriate publication referred to in Annex 1010.1 that shall contain the following information:

(a) a description of the nature and quantity of goods or services included in the contract;

(b) the name and address of the entity awarding the contract;

(c) the date of the award;

(d) the name and address of each winning supplier;

(e) the value of the contract, or the highest-priced and lowest-priced tenders considered in the process of awarding the contract; and

(f) the tendering procedure used.

8. Notwithstanding paragraphs 1 through 7, an entity may withhold certain information on the award of a contract where disclosure of the information:

- (a) would impede law enforcement or otherwise be contrary to the public interest;
- (b) would prejudice the legitimate commercial interest of a particular person; or
- (c) might prejudice fair competition between suppliers.

Article 1016: Limited Tendering Procedures

1. An entity of a Party may, in the circumstances and subject to the conditions set out in paragraph 2, use limited tendering procedures and thus derogate from Articles 1008 through 1015, provided that such limited tendering procedures are not used with a view to avoiding maximum possible competition or in a manner that would constitute a means of discrimination between suppliers of the other Parties or protection of domestic suppliers.

2. An entity may use limited tendering procedures in the following circumstances and subject to the following conditions, as applicable:

- (a) in the absence of tenders in response to an open or selective call for tenders, or where the tenders submitted either have resulted from collusion or do not conform to the essential requirements of the tender documentation, or where the tenders submitted come from suppliers that do not comply with the conditions for participation provided for in accordance with this Chapter, on condition that the requirements of the initial procurement are not substantially modified in the contract as awarded;
- (b) where, for works of art, or for reasons connected with the protection of patents, copyrights or other exclusive rights, or proprietary information or where there is an absence of competition for technical reasons, the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute exists;
- (c) in so far as is strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the entity, the goods or services could not be obtained in time by means of open or selective tendering procedures;
- (d) for additional deliveries by the original supplier that are intended either as replacement parts or continuing services for existing supplies, services or installations, or as the extension of existing supplies, services or installations, where a change of supplier would compel the entity to procure equipment or services not meeting requirements of interchangeability with already existing equipment or services, including software to the extent that the initial procurement of the software was covered by this Chapter;
- (e) where an entity procures a prototype or a first good or service that is developed at its request in the course of and for a particular contract for research, experiment, study or original development. Where such contracts have been fulfilled, subsequent procurement of goods or services shall be subject to Articles 1008 through 1015. Original development of a first good may include limited production in order to incorporate the results of field testing and to

demonstrate that the good is suitable for production in quantity to acceptable quality standards, but does not include quantity production to establish commercial viability or to recover research and development costs;

(f) for goods purchased on a commodity market;

(g) for purchases made under exceptionally advantageous conditions that only arise in the very short term, such as unusual disposals by enterprises that are not normally suppliers or disposal of assets of businesses in liquidation or receivership, but not routine purchases from regular suppliers;

(h) for a contract to be awarded to the winner of an architectural design contest, on condition that the contest is

(i) organized in a manner consistent with the principles of this Chapter, including regarding publication of an invitation to suitably qualified suppliers to participate in the contest,

(ii) organized with a view to awarding the design contract to the winner, and

(iii) to be judged by an independent jury; and

(i) where an entity needs to procure consulting services regarding matters of a confidential nature, the disclosure of which could reasonably be expected to compromise government confidences, cause economic disruption or similarly be contrary to the public interest.

3. An entity shall prepare a report in writing on each contract awarded by it under paragraph 2. Each report shall contain the name of the procuring entity, indicate the value and kind of goods or services procured, the name of the country of origin, and a statement indicating the circumstances and conditions described in paragraph 2 that justified the use of limited tendering. The entity shall retain each report. They shall remain at the disposal of the competent authorities of the Party for use, if required, under Article 1017, Article 1019 or Chapter Twenty (Institutional Arrangements and Dispute Settlement Procedures).

Section C - Bid Challenge

Article 1017: Bid Challenge

1. In order to promote fair, open and impartial procurement procedures, each Party shall adopt and maintain bid challenge procedures for procurement covered by this Chapter in accordance with the following:

(a) each Party shall allow suppliers to submit bid challenges concerning any aspect of the procurement process, which for the purposes of this Article begins after an entity has decided on its procurement requirement and continues through the contract award;

(b) a Party may encourage a supplier to seek a resolution of any complaint with the entity concerned prior to initiating a bid challenge;

(c) each Party shall ensure that its entities accord fair and timely consideration to any complaint regarding procurement covered by this Chapter;

(d) whether or not a supplier has attempted to resolve its complaint with the entity, or following an unsuccessful attempt at such a resolution, no Party may prevent the supplier from initiating a bid challenge or seeking any other relief;

(e) a Party may require a supplier to notify the entity on initiation of a bid challenge;

(f) a Party may limit the period within which a supplier may initiate a bid challenge, but in no case shall the period be less than 10 working days from the time when the basis of the complaint became known or reasonably should have become known to the supplier;

(g) each Party shall establish or designate a reviewing authority with no substantial interest in the outcome of procurements to receive bid challenges and make findings and recommendations concerning them;

(h) on receipt of a bid challenge, the reviewing authority shall expeditiously investigate the challenge;

(i) a Party may require its reviewing authority to limit its considerations to the challenge itself;

(j) in investigating the challenge, the reviewing authority may delay the awarding of the proposed contract pending resolution of the challenge, except in cases of urgency or where the delay would be contrary to the public interest;

(k) the reviewing authority shall issue a recommendation to resolve the challenge, which may include directing the entity to re-evaluate offers, terminate or re-compete the contract in question;

(l) entities normally shall follow the recommendations of the reviewing authority;

(m) each Party should authorize its reviewing authority, following the conclusion of a bid challenge procedure, to make additional recommendations in writing to an entity respecting any facet of the entity's procurement process that is identified as problematic during the investigation of the challenge, including recommendations for changes in the procurement procedures of the entity to bring them into conformity with this Chapter;

(n) the reviewing authority shall provide its findings and recommendations respecting bid challenges in writing and in a timely manner, and shall make them available to the Parties and interested persons;

(o) each Party shall specify in writing and shall make generally available all its bid challenge procedures; and

(p) each Party shall ensure that each of its entities maintains complete documentation regarding each of its procurements, including a written record of all communications substantially affecting each procurement, for at least three years from the date the contract

was awarded, to allow verification that the procurement process was carried out in accordance with this Chapter.

2. A Party may require that a bid challenge be initiated only after the notice of procurement has been published or, where a notice is not published, after tender documentation has been made available. Where a Party imposes such a requirement, the 10-working day period described in paragraph 1(f) shall begin no earlier than the date that the notice is published or the tender documentation is made available.

Section D - General Provisions

Article 1018: Exceptions

1. Nothing in this Chapter shall be construed to prevent a Party from taking any action or not disclosing any information which it considers necessary for the protection of its essential security interests relating to the procurement of arms, ammunition or war materials, or to procurement indispensable for national security or for national defense purposes.

2. Provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between Parties where the same conditions prevail or a disguised restriction on trade between the Parties, nothing in this Chapter shall be construed to prevent any Party from adopting or maintaining measures:

(a) necessary to protect public morals, order or safety;

(b) necessary to protect human, animal or plant life or health;

(c) necessary to protect intellectual property; or

(d) relating to goods or services of handicapped persons, of philanthropic institutions or of prison labor.

Article 1019: Provision of Information

1. Further to Article 1802(1) (Publication), each Party shall promptly publish any law, regulation, precedential judicial decision, administrative ruling of general application and any procedure, including standard contract clauses, regarding government procurement covered by this Chapter in the appropriate publications referred to in Annex 1010.1.

2. Each Party shall:

(a) on request, explain to another Party its government procurement procedures;

(b) ensure that its entities, on request from a supplier, promptly explain their procurement practices and procedures; and

(c) designate by January 1, 1994 one or more contact points to

(i) facilitate communication between the Parties, and

(ii) answer all reasonable inquiries from other Parties to provide relevant information on matters covered by this Chapter.

3. A Party may seek such additional information on the award of the contract as may be necessary to determine whether the procurement was made fairly and impartially, in particular with respect to unsuccessful tenders. To this end, the Party of the procuring entity shall provide information on the characteristics and relative advantages of the winning tender and the contract price. Where release of this information would prejudice competition in future tenders, the information shall not be released by the requesting Party except after consultation with and agreement of the Party that provided the information.

4. On request, each Party shall provide to another Party information available to that Party and its entities concerning covered procurement of its entities and the individual contracts awarded by its entities.

5. No Party may disclose confidential information the disclosure of which would prejudice the legitimate commercial interests of a particular person or might prejudice fair competition between suppliers, without the formal authorization of the person that provided the information to that Party.

6. Nothing in this Chapter shall be construed as requiring any Party to disclose confidential information the disclosure of which would impede law enforcement or otherwise be contrary to the public interest.

7. With a view to ensuring effective monitoring of procurement covered by this Chapter, each Party shall collect statistics and provide to the other Parties an annual report in accordance with the following reporting requirements, unless the Parties otherwise agree:

(a) statistics on the estimated value of all contracts awarded, both above and below the applicable threshold values, broken down by entities;

(b) statistics on the number and total value of contracts above the applicable threshold values, broken down by entities, by categories of goods and services established in accordance with classification systems developed under this Chapter and by the country of origin of the goods and services procured;

(c) statistics on the number and total value of contracts awarded under each use of the procedures referred to in Article 1016, broken down by entities, by categories of goods and services, and by country of origin of the goods and services procured; and

(d) statistics on the number and total value of contracts awarded under derogations to this Chapter set out in Annexes 1001.2a and 1001.2b, broken down by entities.

8. Each Party may organize by state or province any portion of a report referred to in paragraph 7 that pertains to entities listed in Annex 1001.1a-3.

Article 1020: Technical Cooperation

1. The Parties shall cooperate, on mutually agreed terms, to increase understanding of their respective government procurement systems, with a view to maximizing access to government procurement opportunities for the suppliers of all Parties.
2. Each Party shall provide to the other Parties and to the suppliers of such Parties, on a cost recovery basis, information concerning training and orientation programs regarding its government procurement system, and access on a non-discriminatory basis to any program it conducts.
3. The training and orientation programs referred to in paragraph 2 include:
 - (a) training of government personnel directly involved in government procurement procedures;
 - (b) training of suppliers interested in pursuing government procurement opportunities;
 - (c) an explanation and description of specific elements of each Party's government procurement system, such as its bid challenge mechanism; and
 - (d) information about government procurement market opportunities.
4. Each Party shall establish by January 1, 1994 at least one contact point to provide information on the training and orientation programs referred to in this Article.

Article 1021: Joint Programs for Small Business

1. The Parties shall establish, within 12 months after the date of entry into force of this Agreement, the Committee on Small Business, comprising representatives of the Parties. The Committee shall meet as mutually agreed, but not less than once each year, and shall report annually to the Commission on the efforts of the Parties to promote government procurement opportunities for their small businesses.
2. The Committee shall work to facilitate the following activities of the Parties:
 - (a) identification of available opportunities for the training of small business personnel in government procurement procedures;
 - (b) identification of small businesses interested in becoming trading partners of small businesses in the territory of another Party;
 - (c) development of data bases of small businesses in the territory of each Party for use by entities of another Party wishing to procure from small businesses;
 - (d) consultations regarding the factors that each Party uses in establishing its criteria for eligibility for any small business programs; and
 - (e) activities to address any related matter.

Article 1022: Rectifications or Modifications

1. A Party may modify its coverage under this Chapter only in exceptional circumstances.
2. Where a Party modifies its coverage under this Chapter, the Party shall:
 - (a) notify the other Parties and its Section of the Secretariat of the modification;
 - (b) reflect the change in the appropriate Annex; and
 - (c) propose to the other Parties appropriate compensatory adjustments to its coverage in order to maintain a level of coverage comparable to that existing prior to the modification.
3. Notwithstanding paragraphs 1 and 2, a Party may make rectifications of a purely formal nature and minor amendments to its Schedules to Annexes 1001.1a-1 through 1001.1b-3 and Annexes 1001.2a and 1001.2b, provided that it notifies such rectifications to the other Parties and its Section of the Secretariat, and another Party does not object to such proposed rectification within 30 days. In such cases, compensation need not be proposed.
4. Notwithstanding any other provision of this Chapter, a Party may undertake reorganizations of its government procurement entities covered by this Chapter, including programs through which the procurement of such entities is decentralized or the corresponding government functions cease to be performed by any government entity, whether or not subject to this Chapter. In such cases, compensation need not be proposed. No Party may undertake such reorganizations or programs to avoid the obligations of this Chapter.
5. Where a Party considers that:

- (a) an adjustment proposed under paragraph (2)© is not adequate to maintain a comparable level of mutually agreed coverage, or
- (b) a rectification or a minor amendment under paragraph 3 or a reorganization under paragraph 4 does not meet the applicable requirements of those paragraphs and should require compensation,

the Party may have recourse to dispute settlement procedures under Chapter Twenty (Institutional Arrangements and Dispute Settlement Procedures).

Article 1023: Divestiture of Entities

1. Nothing in this Chapter shall be construed to prevent a Party from divesting an entity covered by this Chapter.

2. If, on the public offering of shares of an entity listed in Annex 1001.1a-2, or through other methods, the entity is no longer subject to federal government control, the Party may delete the entity from its Schedule to that Annex, and withdraw the entity from the coverage of this Chapter, on notification to the other Parties and its Section of the Secretariat.

3. Where a Party objects to the withdrawal on the grounds that the entity remains subject to federal government control, that Party may have recourse to dispute settlement procedures under Chapter Twenty (Institutional Arrangements and Dispute Settlement Procedures).

Article 1024: Further Negotiations

1. The Parties shall commence further negotiations no later than December 31, 1998, with a view to the further liberalization of their respective government procurement markets.

2. In such negotiations, the Parties shall review all aspects of their government procurement practices for purposes of:

(a) assessing the functioning of their government procurement systems;

(b) seeking to expand the coverage of this Chapter, including by adding

(i) other government enterprises, and

(ii) procurement otherwise subject to legislated or administrative exceptions; and

(c) reviewing thresholds.

3. Prior to such review, the Parties shall endeavor to consult with their state and provincial governments with a view to obtaining commitments, on a voluntary and reciprocal basis, to include within this Chapter procurement by state and provincial government entities and enterprises.

4. If the negotiations pursuant to Article IX:6(b) of the *GATT Agreement on Government Procurement* ("the Code") are completed prior to such review, the Parties shall:

(a) immediately begin consultations with their state and provincial governments with a view to obtaining commitments, on a voluntary and reciprocal basis, to include within this Chapter procurement by state and provincial government entities and enterprises; and

(b) increase the obligations and coverage of this Chapter to a level at least commensurate with that of the Code.

5. The Parties shall undertake further negotiations, to commence no later than one year after the date of entry into force of this Agreement, on the subject of electronic transmission.

Article 1025: Definitions

1. For purposes of this Chapter:

construction services contract means a contract for the realization by any means of civil or building works listed in Appendix 1001.1b-3-A;

entity means an entity listed in Annex 1001.1a-1, 1001.1a-2 or 1001.1a-3;

goods of another Party means goods originating in the territory of another Party, determined in accordance with Article 1004;

international standard means "international standard", as defined in Article 915 (Definitions - Standards-Related Measures);

limited tendering procedures means procedures where an entity contacts suppliers individually, only in the circumstances and under the conditions specified in Article 1016;

locally established supplier includes a natural person resident in the territory of the Party, an enterprise organized or established under the Party's law, and a branch or representative office located in the Party's territory;

open tendering procedures means those procedures under which all interested suppliers may submit a tender;

selective tendering procedures means procedures under which, consistent with Article 1011(3), those suppliers invited to do so by an entity may submit a tender;

services includes construction services contracts, unless otherwise specified;

standard means "standard", as defined in Article 915;

supplier means a person that has provided or could provide goods or services in response to an entity's call for tender;

technical regulation means "technical regulation", as defined in Article 915;

technical specification means a specification which lays down goods characteristics or their related processes and production methods, or services characteristics or their related operating methods, including the applicable administrative provisions. It may also include or deal exclusively with terminology, symbols, packaging, marking or labelling requirements as they apply to a good, process, or production or operating method; and

tendering procedures means open tendering procedures, selective tendering procedures and limited tendering procedures.

Schedule of the United States

1. Tennessee Valley Authority
2. Bonneville Power Administration
3. Western Area Power Administration
4. Southeastern Power Administration
5. Southwestern Power Administration
6. Alaska Power Administration
7. St. Lawrence Seaway Development Corporation

Note: For goods of Canada, suppliers of such goods and service suppliers of Canada, this Chapter will apply to procurements by the authorities and power administrations listed as items 1 through 6 only at such time as this Chapter applies to the procurements by the Canadian provincial, not including local, hydro utilities.

Annex 1001.1a-3

State and Provincial Government Entities

Coverage under this Annex will be the subject of consultations with state and provincial governments in accordance with Article 1024.

Annex 1001.1b-1

Goods

Section A - General Provisions

1. This Chapter applies to all goods, except to the extent set out in paragraphs 2 through 5 and Section B.
2. With respect to Canada, the goods listed in Section B purchased by the Department of National Defence and the Royal Canadian Mounted Police are included in the coverage of this Chapter, subject to Article 1018(1).

3. With respect to Mexico, the goods listed in Section B purchased by the Secretaría de la Defensa Nacional and the Secretaría de Marina are included in the coverage of this Chapter, subject to the application of Article 1018(1).

4. With respect to the United States, this Chapter will generally apply to Department of Defense purchases of the FSC categories listed in Section B subject to United States Government determinations under Article 1018(1).

5. This Chapter does not apply to the following purchases of the U.S. Department of Defense:

(a) Federal Supply Classification (FSC) 83 - all elements other than pins, needles, sewing kits, flagstaffs, flagpoles and flagstaff trucks;

(b) FSC 84 - all elements other than sub-class 8460 (luggage);

(c) FSC 89 - all elements other than sub-class 8975 (tobacco products);

(d) FSC 2310 - (buses only);

(e) specialty metals, defined as steels melted in steel manufacturing facilities located in the United States or its possessions, where the maximum alloy content exceeds one or more of the following limits, must be used in products purchased by DOD: (1) manganese, 1.65 percent; silicon, 0.60 percent; or copper, 0.06 percent; or which contains more than 0.25 percent of any of the following elements: aluminum, chromium, cobalt, columbium, molybdenum, nickel, titanium, tungsten or vanadium; (2) metal alloys consisting of nickel, iron-nickel and cobalt base alloys containing a total of other alloying metals (except iron) in excess of 10 percent; (3) titanium and titanium alloys; or (4) zirconium base alloys;

(f) FSC 19 and 20 - that part defined as naval vessels or major components of the hull or superstructure thereof;

(g) FSC 51; and

(h) the following FSC categories are not generally covered due to application of Article 1018(1): 10, 12, 13, 14, 15, 16, 17, 19, 20, 28, 31, 58, 59 and 95.

Section B - List of Certain Goods

(Numbers refer to the Federal Supply Classification code)

22. Railway equipment

23. Motor vehicles, trailers and cycles (except buses in 2310; and, for Canada and Mexico, except military trucks and trailers in 2320 and 2330 and tracked combat, assault and tactical vehicles in 2350)

24. Tractors

25. Vehicular equipment components
26. Tires and tubes
29. Engine accessories
30. Mechanical power transmission equipment
32. Woodworking machinery and equipment
34. Metal working machinery
35. Service and trade equipment
36. Special industry machinery
37. Agricultural machinery and equipment
38. Construction, mining, excavating and highway maintenance equipment
39. Materials handling equipment
40. Rope, cable, chain and fittings
41. Refrigeration and air conditioning equipment
42. Fire fighting, rescue and safety equipment (for Canada, except 4220: Marine life-saving and diving equipment; and 4230: Decontaminating and impregnating equipment)
43. Pumps and compressors
44. Furnace, steam plant, drying equipment and nuclear reactors
45. Plumbing, heating and sanitation equipment
46. Water purification and sewage treatment equipment
47. Pipe, tubing, hose and fittings
48. Valves
49. Maintenance and repair shop equipment
52. Measuring tools
53. Hardware and abrasives
54. Prefabricated structures and scaffolding
55. Lumber, millwork, plywood and veneer
56. Construction and building materials
61. Electric wire and power and distribution equipment
62. Lighting fixtures and lamps
63. Alarm and signal systems
65. Medical, dental and veterinary equipment and supplies
66. Instruments and laboratory equipment (for Canada, except 6615: Automatic pilot mechanisms and airborne Gyro components; and 6665: Hazard-detecting instruments and apparatus)
67. Photographic equipment
68. Chemicals and chemical products
69. Training aids and devices
70. General purpose automatic data processing equipment, software, supplies and support equipment (for Canada, except 7010: ADPE configurations)
71. Furniture
72. Household and commercial furnishings and appliances
73. Food preparation and serving equipment
74. Office machines, text processing system and visible record equipment
75. Office supplies and devices
76. Books, maps and other publications (for Canada and Mexico, except 7650: drawings and specifications)
77. Musical instruments, phonographs and home-type radios
78. Recreational and athletic equipment

- 79. Cleaning equipment and supplies
- 80. Brushes, paints, sealers and adhesives
- 81. Containers, packaging and packing supplies
- 85. Toiletries
- 87. Agricultural supplies
- 88. Live animals
- 91. Fuels, lubricants, oils and waxes (Canada and United States only)
- 93. Non-metallic fabricated materials
- 94. Non-metallic crude materials
- 96. Ores, minerals and their primary products (for Mexico, except 9620: minerals, natural and synthetic)
- 99. Miscellaneous

Annex 1001.1b-2

Services

Section A - General Provisions

1. This Chapter applies to all services that are procured by the entities listed in Annex 1001.1a-1 and Annex 1001.1a-2, subject to:

(a) paragraph 3 and Section B; and

(b) Appendix 1001.1b-2-A, for the Parties specified in that Appendix.

2. Appendix 1001.1b-2-B sets out the Common Classification System for the services procured by the entities of the Parties. The Parties shall use this System for reporting purposes and shall update Appendix 1001.1b-2-B at such times as they mutually agree.

3. Annex 1001.1b-3 applies to contracts for construction services.

Section B - Excluded Coverage

Schedule of Canada

Services Exclusions by Major Service Category

The following service contracts are excluded:

A.
Research and Development

All Classes

B.

Special Studies and Analysis - not R&D

B002

Animal and fisheries studies

B003

Grazing and Range Studies

B507

Legal studies (Except Advisory Services on Foreign Law)

B503

Medical and health studies

B400

Aeronautic/Space Studies

C.

Architecture and Engineering Services

C112

Airfield, Communication and Missile Facilities

C216

Marine architect and engineering services

D.

Information Processing and Related Telecommunications Services

D304

ADP Telecommunications and Transmission Services, except those classified as "enhanced or value-added services" as defined in Article 1310 and that are expressly excluded from the reservations set out in Annex II, Schedule of Canada, II-C-3 or II-C-5. For the purposes of this provision, the procurement of "ADP Telecommunications and Transmission services" does not include the ownership or furnishing of facilities for the transmission of voice or data services.

D305

ADP Teleprocessing and timesharing services

D309

Information and Data Broadcasting or Data Distribution Services

D316

Telecommunications Network Management Services

D317

Automated News Service, Data Services, or Other Information Services. Buying data, the electronic equivalent of books, periodicals, newspapers, etc.

D399

Other ADP and Telecommunications Services

F.

Natural Resources and Conservation Services

F004

Land Treatment Practices Services (plowing/clearing, etc).

F005

Range Seeding Services (ground equipment)

F006

Crop services inc. Seed Collection/Production Services

F007

Seedling Production/Transplanting Services

F011

Pesticides/Insecticides Support services

F010

Other Range/Forest Improvements services

F021

Veterinary/Animal Care services (inc. Livestock services)

F029

Other Animal Care /Control services

F030

Fisheries Resources Management Services

F031

Fish Hatchery Services

F050

Recreation Site Maintenance services (non-construction)

F059

Other natural resource and conservation services

G.

Health and Social Services

All classes

H.

Quality Control, Testing and Inspection and Technical Representative Services

Services for the Departments of Transport, Communications and Fisheries and Oceans respecting FSC 36 - (Special Industry Machinery), FSC 70 - (Automatic Data Processing Equipment, software supplies and support equipment) and FSC 74 (Office machines, text processing systems and visible record equipment).

FSC 58 (Communications, Detection, and Coherent Radiation Equipment)

Services with reference to transportation equipment.

J.

Maintenance, Repair, Modification, Rebuilding and Installation of Equipment

Services for the Departments of Transport, Communications and Fisheries and Oceans respecting FSC 36 - (Special Industry Machinery), FSC 70 - (Automatic Data Processing Equipment, software supplies and support equipment) and FSC 74 (Office machines, text processing systems and visible record equipment).

FSC 58 (Communications, Detection, and Coherent Radiation Equipment)

Services with reference to transportation equipment.

J019

Maintenance, Repair, Modification, Rebuilding and Installation of Equipment related to Ships

J998

Non-nuclear Ship Repair

K.

Custodial Operations and Related Services

K0

Personal care services

K105

Guard Services

K109

Surveillance services

K115

Preparation and Disposal of Excess and surplus property

L.

Financial and Related Services

All classes

M.

Operation of Government Owned Facilities

All facilities operated by:

The Department of Defence

The Department of Transport

The Department of Energy, Mines and Resources

and for all Departments:

M180 and M140

R.

Professional, Administrative and Management Support Services

R003

Legal services (Except Advisory Services on Foreign Law)

R004

Certifications and accreditations for products and institutions other than Educational Institutions

R007

Systems Engineering Services 1 /

R012

Patent and Trade Mark Services

R101

Expert Witness

R102

Weather Reporting/Observation services

R104

Transcription services

R106

Post Office services

R109

Translation and Interpreting services (inc. sign language)

R113

Data Collection services

R114

Logistics Support Services 2 /

R116

Court Reporting Services

R117

Paper Shredding Services

R201

Civilian Personnel Recruitment (inc. Services of Employment Agencies)

1 with reference to transportation systems

2 with respect to transportation and defence

S.

Utilities

All classes

T.

Communications, Photographic, Mapping, Printing and Publications Services

All classes

U.

Education and Training Services

U010

Certifications and accreditations for Educational Institutions

V.

Transportation, Travel and Relocation Services

All classes (except V503 Travel Agent Services [not including Tour Guides.])

W.

Lease or Rental of Equipment

Services for the Departments of Transport, Communications and Fisheries and Oceans respecting FSC 36 - (Special Industry Machinery), FSC 70 - (Automatic Data Processing Equipment, software supplies and support equipment) and FSC 74 (Office machines, text processing systems and visible record equipment).

FSC 58 (Communications, Detection, and Coherent Radiation Equipment)

Services with reference to transportation equipment.

Notes:

1.

All services, with reference to those goods purchased by the Department of National Defence, the Royal Canadian Mounted Police and the Canadian Coast Guard which are not identified as subject to coverage by this chapter (Annex 1001.1b-1), will be exempt from the disciplines of the Chapter.

2.

All services purchased in support of military forces located overseas will be exempt from coverage by this chapter.

3.

The Schedules of Canada as identified in Annex 1001.2b and Annex 1001.1b -3 will apply.

4.

In the absence of agreed definitions for service classes under the proposed NAFTA classification system, and until such time as they are mutually agreed, Canada will continue to apply appropriate CPC definitions to identify classes which it considers exempt.

Schedule of Mexico

The following service contracts are excluded:

(Based on the United Nations Central Product Classification (CPC))

1.

All transportation services, including:

CPC

CPC

Group
Class

71
Land transportation

72
Water transport

73
Air transport

74
Supporting and auxiliary transport

75
Post and telecommunication

8868
Repair services of other transport equipment, on a fee or contract basis

2.
Public utilities services (including telecommunications, transmission, water or energy services)

3.
Management and operation contracts awarded to federally-funded research and development centers or related to carrying out government sponsored research programs

4.
Financial services

5.
Research and development services

Schedule of the United States

Utilities

All Classes

V.

Transportation, Travel and Relocation Services

All Classes except V503 Travel Agent Services

Notes:

1.

All services purchased in support of military forces overseas will be excluded from coverage by this Chapter.

2.

For service suppliers of Canada, this Chapter will apply to procurements by the authorities and the power administrations listed as items 1 through 6 in the U.S. Schedule in Annex 1001.1a-2 (Government Enterprises) and to procurements by the Bureau of Reclamation of the Department of Interior only at such time as this Chapter applies to the procurements by the Canadian provincial, not including local, hydro utilities.

Appendix 1001.1b-2-A

Temporary Schedule of Services for Mexico

1. Until Mexico has completed its Schedule to Section B of Annex 1001.1b-2, pursuant to paragraph 2, this Chapter applies only in respect of the services set out in the Temporary Schedule.
2. Mexico shall develop and, after consultations with the other Parties, complete its list of services set out in its Schedule to Section B of Annex 1001.1b-2 no later than July 1, 1995.
3. When Mexico completes its list pursuant to paragraph 2, each Party may, after consultation with the other Parties, review and revise its Schedule to Section B to Annex 1001.1b-2.

Temporary Schedule

Note: Based on the United Nations Central Product Classification (CPC)

CPC

Professional Services

863

Taxation services (excluding legal services)

Architectural services

86711

Advisory and pre-design architectural services

86712

Architectural design services

86713

Contract administration services

86714

Combined architectural design and contract administration services

86719

Other architectural services

Engineering services

86721

Advisory and consultative engineering services

86722

Engineering design services for foundations and building structures

86723

Engineering design services for mechanical and electrical installations for buildings

86724

Engineering design services for civil engineering construction

86725

Engineering design for industrial processes and production

86726

Engineering design services n.e.c.

86727

Other engineering services during the construction and installation phase

86729

Other engineering services

Integrated engineering services

86731

Integrated engineering services for transportation, infrastructure turnkey projects

86732

Integrated engineering and project management services for water supply and sanitation works turnkey projects

86733

Integrated engineering services for the construction of manufacturing turnkey projects

86739

Integrated engineering services for other turnkey projects

8674

Urban planning and landscape architectural services

Computer and Related Services

841

Consultancy services related to the installation of computer hardware

842

Software implementation services, including systems and software consulting services, systems analysis, design, programming and maintenance services

843

Data processing services, including processing, tabulation and facilities management services

844

Data base services

845

Maintenance and repair services of office machinery and equipment including computers

849

Other computer services

Real Estate Services

821

Real estate services involving own or leased property

822

Real estate services on a fee or contract basis

Rental/Leasing Services without Operators

831

Leasing or rental services concerning machinery and equipment without operator, including computers

832

Leasing or rental services concerning personal and household goods (excluding in 83201, the rental of prerecorded records, sound cassettes, CD's and excluding 83202, rental services concerning video tapes)

Other Business Services

Management consulting services

86501

General management consulting services

86503

Marketing management consulting services

86504

Human resources management consulting services

86505

Production management consulting services

86509

Other management consulting services, including agrology, agronomy, farm management and related consulting services

8676

Technical testing and analysis services including quality control and inspection

8814

Services incidental to forestry and logging, including forest management

883

Services incidental to mining, including, drilling and field services

Related scientific and technical consulting services

86751

Geological, geophysical and other scientific prospecting services, including those related to mining

86752

Subsurface surveying services

86753

Surface surveying services

86754

Map making services

8861

through

8866

Repair services incidental to metal products, to machinery and equipment including computers, 8866 and communications equipment

874

Building-cleaning

876

Packaging services

Environmental Services

940

Sewage and refuse disposal, sanitation and other environmental protection services, including sewage services, nature and landscape protection services and other environmental protection services n.e.c.

Hotels and restaurants (including catering)

Hotel and other lodging services

642

Food services

643

Beverage serving services

Travel agency and tour operators services

7471

Travel agency and tour operator services

Appendix 1001.1b-2-B Common Classification System

Services

Notes: 1. It is understood that the Parties will continue to work on the development of definitions related to the categories and other ongoing enhancements to the Classification System. 2. The Parties will continue to review outstanding technical issues that may arise from time to time. 3. This common classification system follows the format described below:

Group = one digit Sub-group = two digit Class = four digit

A - Research and Development

Definition of research and development contracts: Procurement of research and development services include the acquisition of specialized expertise for the purposes of increasing knowledge in science; applying increased scientific knowledge or exploiting the potential of

scientific discoveries and improvements in technology to advance the state of art; and systematically using increases in scientific knowledge and advances in state of art to design, develop, test, or evaluate new products or services. R&D Codes: The R&D code is composed of two alphabetic digits. The first digit is always the letter "A" to identify R&D, the second digit is alphabetic "A to Z" to identify the major sub-group.

B - Studies and Analysis - (not R&D)

Definition of studies and analysis:

Procurement of special studies and analyses are organized, analytic assessments that provide insights for understanding complex issues or improving policy development or decision making. Output obtained in such acquisitions is a formal, structured document including data or other information that form the basis for conclusions or recommendations.

Salvage of Aircraft
V508
Navigational Aid and Pilotage Services

W - Lease and Rental of Equipment
WO
Lease or Rental of Equipment

Appendix 1001.1b-2-B Common Classification System

Services

Notes: 1. It is understood that the Parties will continue to work on the development of definitions related to the categories and other ongoing enhancements to the Classification System. 2. The Parties will continue to review outstanding technical issues that may arise from time to time. 3. This common classification system follows the format described below:

Group = one digit Sub-group = two digit Class = four digit

A - Research and Development

Definition of research and development contracts: Procurement of research and development services include the acquisition of specialized expertise for the purposes of increasing knowledge in science; applying increased scientific knowledge or exploiting the potential of scientific discoveries and improvements in technology to advance the state of art; and systematically using increases in scientific knowledge and advances in state of art to design, develop, test, or evaluate new products or services. R&D Codes: The R&D code is composed of two alphabetic digits. The first digit is always the letter "A" to identify R&D, the second digit is alphabetic "A to Z" to identify the major sub-group.

Code Descriptions

AA

Agriculture

AB

Community Services and Development

AC

Defense Systems

AD

Defense - Other

AE

Economic Growth and Productivity

AF

AS

Transportation - Modal

AT
Transportation - General
AV
Mining Activities
AZ
Other Research and Development

B - Studies and Analysis - (not R&D)

Definition of studies and analysis:

Procurement of special studies and analyses are organized, analytic assessments that provide insights for understanding complex issues or improving policy development or decision making. Output obtained in such acquisitions is a formal, structured document including data or other information that form the basis for conclusions or recommendations.

C - Architect and Engineering Services

C1

- Architect and Engineering Services - Related To Construction

C11

Building and Facility Structures

C111

Administrative and Service Buildings

C112

Airfield, Communication and Missile Facilities

C113

Educational Buildings

C114

Hospital Buildings

C115

Industrial Buildings

C116

Residential Buildings

C117

Warehouse Buildings

C118

Research and Development Facilities

C119

Other Buildings

C12

Non-Building Structures

C121

Conservation and Development

C122

Highways, Roads, Streets, Bridges and Railways

C123

Electric Power Generation (EPG)

C124

Utilities

C129

Other Non-Building Structures

C130

Restoration

C2

- Architect and Engineering Services - Not Related to Construction

C211

Architect - Engineer Services (incl. landscaping, interior layout and designing)

C212

Engineering Drafting Services

C213

A&E Inspection Services

C214

A&E Management Engineering Services

C215

A&E Production Engineering Services (incl. Design and Control and Building Programming)

C216

Marine Architect and Engineering Services

C219

Other Architect and Engineering Services

D - Information Processing and Related Telecommunications Services

D301

ADP Facility Operation and Maintenance Services

D302

ADP Systems Development Services

D303

ADP Data Entry Services

D304

ADP Telecommunications and Transmission Services

D305

ADP Teleprocessing and Timesharing Services

D306

ADP Systems Analysis Services

D307

Automated Information System Design and Integration Services

D308

Programming Services

D309

Information and Data Broadcasting or Data Distribution Services

D310

ADP Backup and Security Services

D311

ADP Data Conversion Services

D312

ADP Optical Scanning Services

D313

Computer Aided Design/Computer Aided Manufacturing (CAD/CAM) Services

D314

ADP System Acquisition Support Services (Includes preparation of statement of work, benchmarks, specifications, etc.)

D315

Digitizing Services (Includes cartographic and geographic information)

D316

Telecommunications Network Management Services

D317

Automated News Services, Data Services, or Other Information Services. Buying data (the electronic equivalent of books, periodicals, newspapers, etc.)

D399

Other ADP and Telecommunications Services (incl. data storage on tapes, Compact Disk (CD), etc.

E - Environmental Services

E101

Air Quality Support Services

E102

Industrial Investigation Surveys and Technical Support Related to Air Pollution

E103

Water Quality Support Services

E104

Industrial Investigation Surveys and Technical Support Related to Water Pollution

E106

Toxic Substances Support Services

E107

Hazardous Substance Analysis

E108

Hazardous Substance Removal, Cleanup, and Disposal Services and Operational Support

E109

Leaking Underground Storage Tank Support Services

E110

Industrial Investigations, Surveys and Technical Support for Multiple Pollutants

E111

Oil Spill Response including Cleanup, Removal, Disposal and Operational Support

E199

Other Environmental Services

F - Natural Resources Services

F0

Agriculture and Forestry Services

F001

Forest/Range Fire Suppression/Presuppression Services (incl. Water Bombing)

F002

Forest/Range Fire Rehabilitation Services (non-construction)

F003

Forest Tree Planting Services

F004

Land Treatment Practices Services (plowing/clearing, etc.)

F005

Range Seeding Services (ground equipment)

F006

Crop Services (incl. Seed Collection and Production Services)

F007

Seedling Production/Transplanting Services

F008

Tree Breeding Services (incl. ornamental shrub)

F009

Tree Thinning Services

F010

Other Range/Forest Improvements Services (non-construction)

F011

Pesticides /Insecticides Support Services

F02

Animal Care / Control Services

F020

Other Wildlife Management Services

F021

Veterinary/Animal Care Services (incl. Livestock Services)

F029

Other Animal Care/Control Services

F03

Fisheries and Ocean Services

F030

Fisheries Resources Management Services

F031

Fish Hatchery Services

F04

Mining

F040

Surface Mining Reclamation Services (non-construction)

F041

Well Drilling

F042

Other Services Incidental to Mining Except Those Listed in F040 and F041

F05

Other Natural Resources Services

F050

Recreation Site Maintenance Services (non-construction)

F051

Survey Line Clearing Services

F059

Other Natural Resources and Conservation Services

G - Health and Social Services

G0

Health Services

G001

Health Care

G002

Internal Medicine

G003

Surgery

G004

Pathology

G009

Other Health Services

G 1

Social Services

G100

Care of Remains and/or Funeral Services

G101

Chaplain Services

G102

Recreational Services (incl. Entertainment Services)

G103

Social Rehabilitation Services

G104

Geriatric Services

G199

Other Social Services

H - Quality Control, Testing, Inspection and Technical Representative Services

HO

Technical Representative Services

HI

Quality Control Services

H2

Equipment and Materials Testing

H3

Inspection Services (incl. commercial testing and Laboratory Services, Except Medical/Dental)

H9

Other Quality Control, Testing, Inspection and Technical Representative Services

J - Maintenance, Repair, Modification, Rebuilding and Installation of Goods/Equipment

JO

Maintenance, Repair, Modification, Rebuilding and Installation of Goods/Equipment; includes as examples:

1. Textile Finishing, Dying and Printing
 2. Welding services not related to Construction.
- (see CPC 5155 for Construction Welding)

J998

Non-nuclear Ship Repair (including overhauls and conversions)

K - Custodial Operations and Related Services

K0

Personal Care Services (incl. services such as Barber and Beauty Shop, Shoe Repairs and Tailoring etc.)

K1

Custodial Services

K100

Custodial - Janitorial Services

K101

Fire Protection Services

K102

Food Services

K103

Fueling and Other Petroleum Services - Excluding Storage

K104

Trash/Garbage Collection Services - Including Portable Sanitation Services

K105

Guard Services

K106

Insect and Rodent Control Services

K107

Landscaping/Groundskeeping Services

K108

Laundry and Dry Cleaning Services

K109

Surveillance Services

K110

Solid Fuel Handling Services

K111

Carpet Cleaning

K112

Interior Plantscaping

K113

Snow Removal/Salt Service (also spreading aggregate or other snow meltings material)

K114

Waste Treatment and Storage

K115

Preparation and Disposal of Excess and Surplus Property

K116

Other Salvage Services

K199

Other Custodial and Related Services

L - Financial and Related Services

L000

Government Life Insurance Programs

L001

Government Health Insurance Programs

L002

Other Government Insurance Programs

L003

Non-Government Insurance Programs

L004

Other Insurance Services

L005

Credit Reporting Services

L006

Banking Services

L007

Debt Collection Services

L008

Coin Minting

L009

Banknote Printing

L099

Other Financial Services

M - Operation of Government - Owned Facilities

M110

Administrative Facilities and Service Buildings

M120

Airfield, Communications, and Missile Facilities

M130

Educational Buildings

M140

Hospital Buildings

M150

Industrial Buildings

M160

Residential Buildings

M170

Warehouse Buildings

M180

Research and Development Facilities

M190

Other Buildings

M210

Conservation and Development Facilities

M220

Highways, Roads, Streets, Bridges and Railways

M230

Electric Power Generation (EPG) Facilities

M240

Utilities

M290

Other Non-Building Facilities

R - Professional, Administrative and Management Support Services

R0

Professional Services

R001

Specifications Development Services

R002

Technology Sharing/Utilization Services

R003

Legal Services

R004

Certifications and Accreditations for products and institutions other than Educational Institutions
