

Each Party shall not permit the reexport of commodities, relative to the export of which the Party from whose customs territory these commodities originate applies measures of tariff and/or nontariff regulation.

Such commodities may be reexported only by a written consent and on the terms set by the authorized agency of the country of origin of the said commodities. In case of failure to comply with this provision, the Party concerned shall be entitled, after preliminary consultations with the other Party, to unilaterally take measures on regulating the export of such commodities to the territory of the other Party that permitted the unconciliated reexport. In case of the reexport of such commodities, the state on whose territory they were manufactured shall be entitled to demand compensations for damages.

In this Article, reexport shall mean the removal of commodities, which originate from the customs territory of one of the states, as specified in Item 2, Article 1 of the present Agreement, by another state beyond its customs territory in order to export them to a third country.

Article 6

The Parties shall on a regular basis exchange all principal information about customs issues, all available customs statistics included. Corresponding authorized agencies of the Parties shall conciliate the procedure for exchanging such information.

Article 7

1. The Parties shall strive to approximate the customs rates that are used in the trade with third countries, for which purpose it was agreed to hold regular consultations.
2. The Parties shall inform each other about the operative customs tariffs and all exceptions related to them.

Article 8

The Parties shall recognize unfair business practices as being incompatible with the purposes of the present Agreement and shall undertake not to permit and to eliminate, in particular, such of their methods:

- agreements between enterprises, decisions made by associations of enterprises, as well as general methods of business practices that aim to hinder or restrict competition or violate the terms for it on the territories of both states;
- actions by which one or several enterprises use their dominating status, restricting competition on the entire or a substantial part of the territories of both states.

Article 9

When effecting measures of tariff and nontariff regulation of bilateral economic relations, for the exchange of statistical information and for conducting customs procedures, the Parties have agreed to use the Harmonized System of Description and Coding of Commodities of the World Trade Organization.

(Article 9 in the wording
of the Protocol of October 18, 2005)

Article 10
