

By mutual agreement the Parties may restrict the export of individual commodities with regard to their volumes and classification, which are annually specified in the agreements on trade and economic cooperation.

Such commodities may be reexported only by a written consent and on the terms set by the authorized agency of the country of origin of the said commodities. In case of failure to comply with this provision, the Party concerned shall be entitled, after preliminary consultations with the other Party, to unilaterally take measures on regulating the export of such commodities to the territory of the other Party that permitted the unconciliated reexport.

Reexport shall mean the removal of commodities, which originate from the customs territory of one Party, by another Party beyond its customs territory in order to export them to a third country.

Article 5

The Parties shall on a regular basis exchange all principal information about customs issues, available customs statistics included, which is the subject matter of the present Agreement. Corresponding authorized agencies of the Parties shall conciliate the procedure for exchanging such information.

Article 6

1. The Parties shall exchange information about their free trade agreements with third countries.
2. The Parties shall inform each other about all amendments to the operative customs tariffs in their countries.

Article 7

The Parties, in accordance with the legislation of the parties, shall recognize as being incompatible with the purposes of the present Agreement unfair business practices resorted to, in particular, in the following:

- agreements between enterprises or associations of enterprises that aim to hinder or restrict competition or violate the terms for it on the territories of the Parties;
- actions by which one or several enterprises use their dominating status, restricting competition on the entire or a substantial part of the Parties' territories.

Article 8

When effecting measures of tariff and nontariff regulation of bilateral economic relations, for the exchange of statistical information and for conducting customs procedures, the Parties shall apply the uniform nine-digit classification of foreign trade commodities (CFTC) based on the Harmonized System of Description and Coding of Commodities and the combined tariff-statistical classification of the European Union. For their own needs the state Parties shall, when necessary, develop the commodity classification beyond the nine-digit limit.

A model copy of commodity classification shall be maintained on the basis of mutual agreement through the existing missions at corresponding international organizations.

Article 9

Each Party, in compliance with its operative domestic legislation, shall ensure free transit through its territory of commodities originating from the customs territory of another Party or third countries and intended for the customs territory of the other Party or third country, and provide to exporters, importers or carriers all the available and required facilities and services, financial services included, for transit on terms that are not worse than those on which the very same facilities and services are provided to their own exporters, importers, or national carriers of any third country. Each Party shall
