## TITLE II DEFINITION OF THE CONCEPT OF "ORIGINATING PRODUCTS"

## Article 2

### General requirements

- 1. For the purpose of implementing this Agreement, the following products shall be considered as originating in Montenegro:
- (a) products wholly obtained in Montenegro within the meaning of Article 5;
- (b) products obtained in Montenegro incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in Montenegro within the meaning of Article 6;
- 2. For the purpose of implementing this Agreement, the following products shall be considered as originating in Ukraine:
- (a) products wholly obtained in Ukraine within the meaning of Article 5;
- (b) products obtained in Ukraine incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in Ukraine within the meaning of Article 6.

#### Article 3

#### **Cumulation in Montenegro**

Without prejudice to the provisions of Article 2(1), products shall be considered as originating in Montenegro if such products are obtained there, incorporating materials originating in Ukraine, provided that the working or processing carried out in Montenegro goes beyond the operations referred to in Article 7. It shall not be necessary that such materials have undergone sufficient working or processing.

#### **Cumulation in Ukraine**

Without prejudice to the provisions of Article 2(2), products shall be considered as originating in Ukraine if such products are obtained there, incorporating materials originating in Montenegro, provided that the working or processing carried out in Ukraine goes beyond the operations referred to in Article 7. It shall not be necessary that such materials have undergone sufficient working or processing.

## Article 5 Wholly obtained products

- 1. The following shall be considered as wholly obtained in Montenegro or in Ukraine:

The conditions referred to above indicate, for all products covered by the Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. It follows that if a product which has acquired originating status by fulfilling the conditions set out in the list is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

2. Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in the list, should not be used in the manufacture of a product may nevertheless be used, provided that:

- (a) their total value does not exceed 10 per cent of the ex-works price of the product;

3. Paragraphs 1 and 2 shall not apply subject to the provisions of Article 7.

## Article 7

#### Accessories, spare parts and tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

## Article 10 Sets

Sets, as defined in General Rule 3 of the Harmonized System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 per cent of the ex-works price of the set.

- 3. The customs authorities may grant such authorisation, subject to any conditions deemed appropriate.
- 4. This method is recorded and applied on the basis of the general accounting principles applicable in the country where the product was manufactured.

If the declaration is hand-written, it shall be written in ink in printed characters.
- 5. Invoice declarations shall bear the original signature of the exporter in manuscript. - 2. Proofs of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential

treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.

3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

## Article 25 **Submission of proof of origin**

Proofs of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country.
