

PART I
TRADE PARTNERSHIP FOR SUSTAINABLE DEVELOPMENT

Article 1
Objectives

The objectives of this Agreement are to:

1. enable the Pacific States to benefit from the improved market access offered by the UK under this Agreement and pending the conclusion of a comprehensive Economic Partnership Agreement between the Pacific States and the UK;
2. promote sustainable development and the gradual integration of the Pacific States into the world economy, in conformity with their political choices and development priorities;
3. establish a free trade area between the Parties based on the common interest, and fulfil this objective by the progressive liberalisation of trade in a manner compliant with applicable WTO rules and the principle of asymmetry, commensurate to the specific needs and capacity constraints of the Pacific States, in terms of levels and timing for commitments under this Agreement;
4. set up the appropriate dispute settlement arrangements;
5. set up the appropriate institutional arrangements.

Article 2
Principles

1. This Agreement is based on the Objectives and Fundamental Principles as well as the Essential and Fundamental Elements set out in Annex IV. This Agreement shall build on the achievements of the Cotonou Agreement and the previous ACP-EC Partnership Agreements in the area of regional cooperation and integration as well as economic and trade cooperation.

Article 3
Sustainable development

1. The Parties reaffirm that the objective of sustainable development shall be an integral part of the provisions of this Agreement, consistent with the overarching objectives and principles set out in Annex IV and especially the general commitment to reduce and eventually eradicate poverty in a way that is consistent with the objectives of sustainable development.
2. The Parties understand this objective to apply in the case of the present Agreement as a commitment that:
 - (a) the application of this Agreement shall fully take into account the human, cultural, economic, social, health and environmental best interests of their respective populations and of future generations;
 - (b) decision-taking methods embrace the fundamental principles of ownership, participation and dialogue.
3. As a result the Parties agree to work cooperatively towards the realisation of a sustainable development centred on the human person, who is the main beneficiary of development.

Article 4
Regional integration

1. This Agreement builds upon and aims at deepening regional integration and the Parties undertake to cooperate to further develop it.
2. Nothing in this Agreement shall prevent any Party from entering into any Agreement for the establishment of a free trade area, customs union or other free trade Agreement with any third countries.

Article 5

Cooperation in international fora

1. The Parties shall endeavour to cooperate in all international fora where issues relevant to this Agreement are discussed.
2. The Parties recognise the valuable contribution that regional organisations can make to the achievement of the objectives of this Agreement. The Parties agree to work closely with existing Pacific regional organisations and programmes wherever useful and possible to support the implementation of this Agreement.

Article 8

Rules of origin

For the purposes of this Chapter, 'originating' means qualifying under the rules of origin set out in Protocol II to this Agreement. In the period of the five years following the entry into force of this Agreement the Parties shall review the operation of these provisions, with a view to further simplifying the concepts and methods used for the purpose of determining origin in the light of the development needs of the Pacific States. In such review, full consideration shall be given to providing certainty for investors, the development of technologies and production processes and all other factors, including on-going reforms of rules of origin and the establishment of appropriate mechanisms for administrative cooperation between the Parties and the Pacific States as the case may be, which may require modifications to the provisions of this Protocol. Not later than one year before the end of this period, the Parties shall open negotiations on the Protocol with a view to modifying or replacing it. Any such modification or replacement shall be effected by a decision of the Trade Committee.
